## Calder Morton-Ferguson

Department of Mathematics Stanford University		https://caldermf.github.io/ caldermf@stanford.edu	
Education	Ph.D. Student, Mathema	Massachusetts Institute of Technology Ph.D. Student, Mathematics. August 2019-May 2024. Advisor: Roman Bezrukavnikov	
		ence, June 2019. GPA: 4.0/4.0 Computer Science Minor	
Employment	Stanford University Szegő Assistant Professo	r, since July 2024	
Papers	5. Polishchuk's conjecture of preprint arXiv:2309.1346	and Kazhdan-Laumon representations, under review.	
	v -	gne Transforms on $G/U$ and the Algebra of Braids and et. IMRN <b>2024</b> (2024), no. 13, 10219–10235.	
	_	ory O, Braverman-Kazhdan Schwartz space, and the under review. preprint arXiv:2210.03101	
		Elek, J. Kamnitzer) Heaps, crystals, and preprojective d to Selecta Math. preprint arXiv:2202.02490	
	basis and Duistermaat-H	J. Kamnitzer) Appendix to <i>The Mirkovic-Vilonen Teckman measures</i> by P. Baumann, J. Kamnitzer, and <b>227</b> (2021), no. 1, 1-101. arXiv:1905.08460	
Research Awards	Best graduate student pa	Jennifer C. Johnson Prize, 2024  aper, awarded for Symplectic Fourier-Deligne the Algebra of Braids and Ties	
	NSERC PGS-D Posts Kazhdan-Laumon catego	graduate Scholarship, 2021-2024 ories and representations	
	Topology of quiver flag v	rarieties, supervised by Joel Kamnitzer, 2018 ervised by Dror Bar-Natan, 2017	
Teaching	Instructor, Stanford Un Math 51 (Linear Algebra	niversity a & Multivariable Calculus) Fall 2024	
	Course Administrator 18.02B (Calculus III) W	c, Massachusetts Institute of Technology inter 2022	
		Iassachusetts Institute of Technology raic Geometry II) Spring 2024	

18.745~&~18.755 (Graduate Lie Groups & Lie Algebras) Fall 2023, Spring 2024 18.702 (Abstract Algebra II) Spring 2023

 $18.02 \mathrm{A} \ \& \ 18.02 \mathrm{B}$  (Calculus II & III) Fall 2021, Winter 2022

18.725 & 18.726 (Graduate Algebraic Geometry I & II) Fall 2020, Spring 2021

#### Teaching Assistant, University of Toronto

MAT257 (Analysis II) 2018-2019, MAT137 (Calculus) 2017-2018 MAT135 & MAT136 (Calculus 1A/1B) Fall 2016, Spring 2017

### Other Awards

#### MIT Charles and Holly Housman Award, 2022

Presented for "skill and dedication in undergraduate teaching" in 2021-2022

#### MIT School of Science Spot Appreciation Award, 2022

Presented for work as the course administrator for 18.02B in Winter 2022

#### MIT Presidential Fellowship, 2019

Awarded to 110-125 new students per year "to recruit the most outstanding students worldwide" to pursue graduate studies at MIT

#### Janet Paterson Scholarship, 2019

Awarded annually to the top graduating student of Innis College at the University of Toronto

#### Governor General's Silver Medal, Innis College Nominee, 2019

Awarded annual to the graduating student from Innis College with the highest grade-point average

Top 500, William Lowell Putnam Mathematical Competition, 2018

#### Samuel Beatty In-Course Scholarship, 2018

Awarded for academic performance in the 2017-2018 academic year

Margaret and Thomas Taylor Scholarships in Mathematics, 2017

#### University of Toronto Scholar, 2016-2018

Awarded to the top 100 undergraduates at the university each year

University of Toronto President's Entrance Scholarship, 2015

Euclid Mathematics Contest Regional Winner, 2015

### Research Mentorship

#### MIT UROP Supervisor, 2021-2024

Formal degrees of representations of p-adic groups with undergraduate student Kenta Suzuki. Fall 2022-Spring 2024.

q-quasiinvariant polynomials and Cherednik algebras at roots of unity with undergraduate student Frank Wang. Fall 2021, Spring 2022.

#### MIT SPUR Mentor, Summer 2021

Convolution-exactness of perverse sheaves on the affine flag variety with undergraduate student Alan Peng.

Toward explicit Hilbert series of quasi-invariant polynomials in characteristic p with undergraduate student Frank Wang.

#### MIT PRIMES Mentor, 2020

On the generational behavior of Gaussian binomial coefficients at roots of unity

with high school students Andy Chen, Peter Jiang, and Tom Wang.

# Seminar & Conference Talks

#### MIT Seminar on Affine Kac-Moody Algebras, 2024

"Screening operators of the first and second kind" May 6 & 9, 2024. Cambridge, MA.

#### UCLA Algebra Seminar, 2023

"Kazhdan-Laumon categories and Polishchuk's conjecture" November 3, 2023. Los Angeles, CA.

## Canada-USA-Mexico Representation Theory, Noncommutative Algebra and Categorification, 2023

"Kazhdan-Laumon categories and representations" (poster) August 25, 2023. Montreal, QC, Canada.

#### UMass Amherst Representation Theory Seminar, 2023

"Kazhdan-Laumon categories and symplectic Fourier-Deligne transforms" May 8, 2023. Amherst, MA.

#### Yale Geometry, Symmetry and Physics Seminar, 2023

"Kazhdan-Laumon categories, semi-infinite flags, and the algebra of braids and ties" April 3, 2023. New Haven, CT.

#### MIT Lie Groups Seminar, 2022

"Kazhdan-Laumon Category O, Schwartz space, and the semi-infinite flag variety" December 7, 2022. Cambridge, MA.

## ICERM Program on Braids in Representation Theory and Combinatorics, 2022

"Kazhdan-Laumon categories and the symplectic Fourier transform" February 16, 2022. ICERM, Providence, RI.

#### MIT Pure Math Graduate Student Seminar, 2021

"Crystal bases from reverse plane partitions" September 24, 2021. Massachusetts Institute of Technology, Cambridge, MA.

#### IAS Quantum Groups Learning Seminar, Spring 2021

"Braid group actions and a PBW-type basis" March 4 & 11, 2021. Institute for Advanced Study, Princeton, NJ (presented virtually).

#### Canadian Undergraduate Math Conference, 2016-2019

Queen's University, Kingston, ON, 2019 University of Saskatchewan, Saskatoon, SK, 2018 University of Quebec at Montreal, Montreal, QC, 2017 University of Victoria, Victoria, BC, 2016

# Workshops & Conferences Attended

#### WARTHOG 2024: Coherent-Constructible Equivalences in Local Geometric Langlands and Representation Theory

July 22-26, 2024. University of Oregon, Eugene, OR.

#### Relative Langlands Duality Summer School & Workshop

June 3-6, 2024. University of Minnesota, Minneapolis, MN.

#### MSRI Summer School in Derived Algebraic Geometry

June 26-July 7, 2023. UC Berkeley, Berkeley, CA.

#### Coulomb Branches and Knot Homology Summer School in Geometric Representation Theory

June 19-23, 2023. Massachusetts Institute of Technology, Cambridge, MA.

#### Lie Groups Days in Honor of David Vogan

September 23-24, 2022. Massachusetts Institute of Technology, Cambridge, MA.

## Quantized Symplectic Singularities and Applications to Lie Theory June 13-17, 2022. Massachusetts Institute of Technology, Cambridge, MA.

#### Los Angeles Workshop on Representations and Geometry: Schubert Calculus and Quantum Integrability

June 6-10, 2022. University of Southern California, Los Angeles, CA.

#### Conference on Representation Theory & Algebraic Analysis

May 11-14, 2020. Weizmann Institute of Science (attended virtually).

#### Summer School on Geometric & Algebraic Combinatorics

June 17-28, 2019. Institut de Mathématiques de Jussieu-Paris Rive Gauche, Paris, France.

### Thematic Program in Commutative Algebra & Algebraic Geometry

May 28-June 1, 2019. Notre Dame University, Notre Dame, IN.

#### Thematic Program in Geometric Representation Theory

June 11-15, 2018. Notre Dame University, Notre Dame, IN.

#### University of Toronto Perverse Sheaves Learning Seminar

September 2018-April 2019. University of Toronto, Toronto, ON, Canada.

# Service & Other Experience

#### Refereeing

IMRN, Transformation Groups.

#### Teaching Assistant, Boston Pre-Release Center

Spring 2023, Boston, MA. Taught high-school equivalent math to incarcerated students at the Boston Pre-Release correctional facility.

#### MIT Pure Math Graduate Student Seminar Co-Organizer

2020-2021, Massachusetts Institute of Technology.

#### University of Toronto Mathematics Union President

2017-2018, University of Toronto.
